

Healthway Air Purification System:

Pit to Dance Studio One of our steps we are taking for your Safety & Wellbeing

Purifying our Indoor Air is NOT an Event, It is a Continuous Process!

A 90% cleaner office/home in just 30 minutes, making it the one of the most powerful air purification systems

FEATURES & BENEFITS OF OUR AIR SYSTEM:

- **Disinfecting Filtration System (DFS) & Sanitizing Filtration System (SFS)**- technology is proven to remove 99.99% of all harmful viruses, fungi, molds, bacteria and particles as small as .007 micron in size (Coronavirus is .08 to .16 micron)
- **PARTICLE EFFICIENCY is 99.99% of air pollutant particles & MICROBES at 0.007 MICRONS-**
 - ✓ 40 X's more effective than a HEPA Filter
 - ✓ 4 X's better capacity than a HEPA-approved rating (High-Efficiency Particulate Air)
 - ✓ **Traps allergy-causing particles-** dust, mold, pollen, dust mite debris and pet dander
 - ✓ Our DFS & SFS Filters **trap microorganisms (viruses)** as small as **0.007 micron!**
- **Patented Germ-Killing Zone-** 16,000 volts of continuous energy- **KILLS ALL PATHOGENS**
- **Rapid Air Recirculation-** air can be recirculated as quickly as every 15 minutes. (20' x 25' room)
- **VOCs Absorption-** breaks down all kinds of indoor volatile organic compounds 9-stage VOC adsorption filter for heavy removal of harmful gases and odors
- **24/7 Continuously Cleansing of the Air-** 365 days per year
- **Proven Patented Air Cleaning-** technology that is currently used in hospitals, medical clean rooms, government buildings, and military applications

Provided by Blue Marble Water Solutions, we specialize in "Purification" of water, air & cleaning solutions

BLUE MARBLE WATER SOLUTIONS
Purify you can trust

Cleaning & Sanitizing:

- *We will routinely clean and disinfect all high-touch areas in accordance with DOH and CDC guidelines, including, but not limited to, restrooms, counter tops, handrails, door knobs, barres, benches, chairs, and other common surfaces.*
- *To ensure we have sufficient cleaning time, classes may be dismissed 10 minutes early so the rooms can be sanitized before the next class enters.*
- *There will be hand sanitizer stations on the wall at the entrance of each dance room and also in the common areas.*

Restroom Procedures:

- *The restroom will be cleaned and sanitized after every dance class.*
- *Anti-Bacterial hand soap will be available in the restroom.*
- *All students must wash their hands for 20 seconds after using the restroom.*

Inside The Dance Rooms:

- *The dance studio floors have been marked off with tape. Each student will have a 6 foot spot/box to dance.*
- *No dancers will come within 6 feet of each other while in the dance studio.*
- *Dancers must have shoes on their feet at all times. No bare feet allowed.*
- *If dance shoes are not owned, dancers may wear socks.*
- *There will be no use of shared dance props. Individual prop bags will be sold for \$5 each.*

Hybrid Classes/In-Person Classes & Zoom

- ***Hybrid/In-Person Classes*** *Classes will run on a rotating A and B schedule of in person and virtual class. Our rooms are set with 6 ft social distancing spaces. Each dancer will have their own space big enough to dance or tumble in. At this time all teachers and students under 3 are required to wear masks inside the studio buildings. Masks and water breaks are safely given regularly.*
- ***Zoom Classes*** *If you are not ready to come into the studio each class has a Zoom option. You or your child will take class along with their friends from the comfort of your home. We just ask that the student is provided with a well-lit, quiet space with enough room to safely move and a device large enough to see the instructor. Casting the personal device to a TV is the best option but a larger tablet or computer screen will work too. Zoom may also be used if the student is feeling unwell.*

Lobby Procedure

- *The lobby is closed to parents and siblings*
- *Students will have their own 6ft space for their belongings. Younger students' classes will have designated spots within the studio room for their belongings.*

Health Screening:

- *All staff members will be screened and have temperatures taken at the start of their shift.*
- *Any staff member found ill or with symptoms will be immediately sent home and the dance studio will be sanitized from top to bottom. This will take place before any students enter the facility.*
- *If a staff member is found ill or with symptoms all dance families will be notified immediately.*
- *Students who seem symptomatic will be dismissed immediately. A family member will be contacted for immediate pick up. The dance studio will be sanitized from top to bottom and all students' family members will be contacted and made aware.*
